Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	LOXAM ELECTRIC CAPEX PROGRAM
Project Number:	2021-0438
Country:	France
Project Description:	<i>The project consists in the company's multi-annual green investment plan in new state-of-the-art electric equipment and a small share of other 'low emission' biofuel and hydrogen powered equipment for the substitution of fossil fuel-powered, polluting and CO2-emitting rental equipment and rental fleet renewal in France, Sweden, Finland, Denmark, Netherlands, Italy and Spain. It includes the implementation of charging stations and hydrogen-refuelling stations, as well as the associated digitalisation for tracking, remote diagnostics and preventive maintenance.</i>

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

No significant environment or social issues were noted, nor any significant changes from the ESDS.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
