## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	IRBM COVID-19 (IDFF)
Project Number:	2021-0116
Country:	Italy
Project Description:	IRBM provided a synergistic multifaceted response to tackle coronaviruses. The project supported the development of increased GMP manufacturing, testing and release capacity for the manufacture of COVID-19 vaccines.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project concerned investments in the furnishing and validation of an existing manufacturing and laboratory facility, together with the associated laboratory and manufacturing equipment.

The Promoter has had an integrated environmental management policy with effective operating procedures in place in line with best industry practice.

The operating procedures in place are in-line with best industry standards and are regularly audited externally.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter and a site visit by the EIB team towards the completion of the Project that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
