Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	Jiangxi Water Transport I
Project Number:	20170730
Country:	CHINA
Project Description:	<i>The project consists of the construction of the Bazizui navigation hub on the Xinjiang river, one of the five major river systems in Jiangxi province. The proposed project is part of a larger and more comprehensive waterborne transport infrastructure programme, involving other internal waterways projects on Xinjiang and Ganjiang rivers. After project completion, the cargo expected to be transported in the waterway will be mainly solid bulk and general cargo.</i>

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Promoter reported that the project was developed in line with the requirements defined in the EIA and associated documents and the Bank's Services are not aware of any outstanding environmental issues, incidents or pending claims related with the project.

During the construction works, different monitoring/supervision activities were undertaken by other public authorities, including the Jiangxi Academy of Environmental Sciences and the East China Survey and Design Institute.

It was also reported that the land compensation exercise was carried out in line with what was planned in the EIA and other technical documents and defined in the relevant Chinese regulations. There were no household resettlements associated to the project.

Conditions and undertakings

The following environmental and social undertakings were included in the Finance contract:

Environmental conditions:

- *Before the first disbursement, satisfactory evidence shall be provided to the Bank that an experienced Environmental and Social team has been contracted under the Project Management Office to monitor the implementation of the Environmental and Social Management Plan (ESMP) in line with the approved EIA;*
Documents (including CVs of experts and environmental and social management plan) provided before 1st disbursement and reviewed by the Bank's Services.
- *Before the first disbursement, the Promoter shall submit to the Bank the official "Notice to start the expropriation process" issued by the relevant and competent public administration (Yugan County) together with the last version of the Resettlement Action Plan (or equivalent), to the Bank's satisfaction;*

Luxembourg 31 October 2025

Documents (including “Notice on land acquisition”, “Land requisition Action Plan”, “Map of land acquisition”, “Resettlement Action Plan” and “Resettlement monitoring Report 2019”) provided before 1st disbursement and reviewed by the Bank’s Services.

- *Before the first disbursement, the Promoter shall submit the final version of the Stakeholder Engagement Plan (SEP) to the Bank’s satisfaction*

Documents (including “Stakeholder Engagement Plan” and “Resettlement monitoring Report 2019”) provided before 1st disbursement and reviewed by the Bank’s Services.

Environmental undertakings:

- *The Promoter shall ensure that an adequate ESMP, defined according to the relevant EIA, any additional studies and the corresponding environmental authorisations, is implemented and monitored during the construction of the project, and will promptly notify the Bank of any unexpected environmental impact or incident during the construction of any project component;*

The CVs of experts and the environmental and social management plan have been provided before 1st disbursement and reviewed by the Bank’s Services. The Promoter reported annually between 2019 and 2024, including on environmental and social matters. No incidents have been reported.

- *The construction works contracts will comply with the national law on labour and the ILO fundamental conventions. The promoter will be expected to incorporate Environmental and Social standards of the Bank into contractual arrangements with future contractors for the project. A project worker grievance mechanism will be implemented. These provisions should apply to the main contractors and subcontractors and will be monitored during the construction works;*

The Promoter included references to the EIB Environmental and Social Standards in the tender documents, as well as the relevant environmental and integrity covenants.

- *During the construction works, the Promoter shall monitor and give regular updates on the respect of the fulfilment of ILO Conventions by main contractors and subcontractors;*

The Promoter reported annually between 2019 and 2024, including on H&S matters and the Bank is not aware of any infringements of the related requirements. No incidents have been reported.

- *During the construction works, the Promoter shall report to the Bank on an annual frequency on environmental and social issues*

The Promoter reported annually between 2019 and 2024, including on environmental and social matters.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, before, during and after the construction period that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
