Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: SCM WOODWORKING MACHINERY RDI 2021-24
 Project Number: 2020-0720
 Country: ITALY
 Project Description: The Project concerned the Promoter's Research, Development and Innovation (RDI) activities in the field of wood and light materials working machinery. It comprised three main components: (1) RDI activities on products, (2) RDI activities on internal manufacturing processes as well as (3) digitization. The project covered the period 2021-24; it has been carried out in Italy primarily in the Promoter's headquarters and in cooperation with R&D partners.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Project comprised RDI activities in the field of wood and light materials working machinery and production systems, thus with an intangible asset dimension; the Project's activities are not listed in any annexes of the EIA Directive 2011/92/EU amended by Directive 2014/52/EU. The financed activities have been carried out in existing facilities that have not changed their scope due to the Project. Hence, the Project did not require any additional authorisations or modifications of existing permits.

The Project has entailed positive environmental externalities, by supporting the Promoter in developing new and more efficient machines platforms with improved performance and material efficiency.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the Promoter during the implementation, that the Project has been implemented in line with EIB Environmental and Social Standards applicable at the time of appraisal.
