Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	RYVU (EGFF)
Project Number:	2021-0357
Country:	Poland
Project Description:	The Project covered R&D activities, both OPEX and CAPEX related to clinical state development programmes (incl. clinical trials, regulatory process, IP) as well as further discoveries and pre-clinical pipeline.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

No significant environmental issues were noted during the implementation of the Project. Due to the nature of the activity carried out by the Promoter and the number of clinical trials opened and in operation for the Pipeline development, the Project has generated positive societal impact considering the availability of additional therapy options for patients with serious or life-threatening diseases.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
