## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: SAPA INNOVATIVE & SUSTAINABLE VEHICLE COMPONENTS  
 Project Number: 2021-0238  
 Country: Italy, Poland  
 Project Description: The Project concerned the Promoter's investments for Research, Development and Innovation (RDI) activities in the field of advanced, lighter, recycled / reused and recyclable materials and associated process technologies, as well as capital expenditures for the digitalisation and modernization of existing European production sites in the period 2021-2024. The investments will be carried out at the company's facilities in Italy and Poland.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The Project has contributed to maturing technologies, designing new products, and developing new automated injection moulding processes for a wide range of applications. As the Project's activities are not listed in any annexes of the Environmental Impact Assessment (EIA) Directive 2011/92/EU, amended by Directive 2014/52/EU, an EIA was not required.

The Project focused on sustainability, lightweight solutions, and cost reduction through deployment of advanced manufacturing processes, as well as on developing components with increased content of recycled and more sustainable materials and produced from organic sources. The Project also focused also on reducing the weight of final components through the adoption of new material formulations or reducing the environmental impact of painted products.

The Project has been implemented in alignment with the Climate Bank Roadmap and, as such, with the principles outlined in the Paris Agreement.

No environmental or social issues have been reported in relation to the Project.

### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards applicable at the time of appraisal.
