## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: ENDESA EV SUSTAINABLE CHARGING NETWORK

Project Number: 2020-0084

Country: Spain

Project Description: The project involved the deployment of a nationwide electric vehicle charging (EVC) network in Spain, supporting the transition to electromobility. The infrastructure comprised a mix of AC and DC chargers, including high power charging (HPC) units, to meet evolving market needs and user expectations.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project does not fall under either Annex I or Annex II of the EU EIA Directive.

No significant adverse environmental or social impacts were reported during implementation. Where required, mitigation measures were implemented in line with the permitting.

The promoter reported that all environmental and social conditions and undertakings noted at appraisal have been met.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion, based on reports from the promoter during project implementation, that the project has been implemented in line with EIB Environmental and Social Standards and applicable EU regulations.
