Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: AGRI-INFRASTRUCTURE AND BIOMASS POWER GENERATION

Project Number: 2016-0881

Country: Ukraine

Project Description: The project consists of the financing of (i) 2 inland grain silos, (ii) a grain handling and storage terminal located within the Port of Chernomorsk, (iii) 5 biomass-fired CHPs and (iv) one sunflower oil crushing plant, in different locations in Ukraine.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project has been completed in compliance with the EIB environmental and social requirements defined at project appraisal stage.

Due to the impact of the Russian invasion of Ukraine, the practical completion of several components of the project was delayed compared to the construction programme defined at appraisal stage. Moreover, the Vovchansky site located in a conflict zone has been destroyed by the war and is therefore temporarily exempt from EIB reporting requirements.

The project was developed in compliance with national regulatory requirements and the EU Best Available Technologies (BAT).

Two fatal accidents occurred during the construction of the project. The accidents have been investigated internally by the Promoter and its contractors, as well as by the authorities. Corrective measures have been taken, including updates to working methods, additional training

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
