

Environmental and Social Data Sheet

Overview

Project Name:	OPERATION CAMPUS
Project Number:	2013-0002
Country:	France
Project Description:	The Opération Campus loan consists of campus re-development, relocation, extension, new build and refurbishment of 13 research-intensive universities ¹ in France. Eleven out of these universities/university campuses eligible to the project funding were selected according to a set of quality and efficiency parameters including the need for refurbishment, and for environmental, pedagogical and scientific aspects by an international jury. Two other universities were selected because of their importance for their regional development. The selected universities contribute to the economy and employment of their respective regions. The individual university projects to be co-financed by the EIB will be defined and appraised case by case at a later stage.
EIA required:	Certain sub-schemes might fall under Annex II of the EIA Directive and could be subject to EIA. If the EIA is required by the competent authority, the respective promoter should make the Non-Technical Summary (NTS) of the Environmental Impact Analysis (EIA) available to the EIB prior to the Bank's funding being used.

Summary of Environmental and Social Assessment, including key issues and overall conclusion and recommendation

The Universities eligible for the project funding are in charge and operate a number of academic buildings as well as student residences of their respective campus. The project sites are situated in existing campus areas and are already within respective city and/or regional plans. Council Directive 2011/92/EU on Environmental Impact Assessment (EIA) does not specifically mention education activities, however in case of urban development, Annex II of the EIA Directive could apply. The need of an EIA will be decided by the relevant competent authorities for each sub-project on case by case basis.

Environmental and Social Assessment

Environmental Assessment

Not applicable. Need to be appraised case by case, project by project.

Public Consultation and Stakeholder Engagement, where required

The Promoter will have to ensure compliance with national and European environmental and nature regulations and facilitate the access by the public to environmentally relevant information in accordance with the Bank's Transparency Policy. Information on public consultation and stakeholder engagement to be provided to the Bank prior to disbursements.

Other Environmental and Social Aspects

Not applicable. Need to be appraised case by case, project by project.
