

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	D1 JANOVCE-JABLONOV
Project Number:	20120165
Country:	Slovakia
Project Description:	Construction of a new 18.5 km section of the D1 motorway between Janovce and Jablonov in Slovakia.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted during construction. A number of mitigation measures were included as part of the project design including landscaping, installing animal fencing, construction of noise retaining walls and drainage measures. During construction, measures to reduce noise and dust were carried out.

Archaeological excavations were carried out in compliance with the opinion issued by the Heritage Office of Slovakia on 30.06.2011.

The construction works recorded 17 injury accidents and 5 fatalities. Four fatalities were related to temporary works during the construction of a bridge and one was related to a tunnel blasting accident. Information on the accident report was received by the Bank as required under the loan allocation condition.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the promoter, that the Project was implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
