Environmental and Social Assessment

The projects to be financed under this Programme Loan will most likely concern investments that are expected to be carried out in existing facilities without changing the already authorized scope and would therefore not require an EIA under the Directive 2011/92/EU. However, for each sub-operation under this Programme Loan the Bank's services will review during the project appraisal whether any of the concerned projects could fall under the EIA Directive, as well as any other environmental legislation and will ensure that those investments are implemented in compliance with the EU legislation.

PJ/SQM/ECSO 15.10.15

¹ Only projects that meet the scope of the Pilot Exercise, as defined in the EIB draft Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: above 100,000 tons CO₂e/year absolute (gross) or 20,000 tons CO₂e/year relative (net) – both increases and savings.
