Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	ILIAD BROADBAND II
Project Number:	2011-0605
Country:	FRANCE
Project Description:	The project concerned the expansion of advanced fixed broadband telecommunications infrastructure in France by an alternative telecommunication services provider, to provide basic broadband as well as high speed and very high speed broadband services. Compared to the estimates made during appraisal, the promoter decided to invest significantly more than initially planned in the further expansion of its xDSL network, in detriment of the investments in the roll-out of the FTTH network.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
