

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	Solid State Lighting (SSL) R&D
Project Number:	2013-0601
Country:	Germany
Project Description:	The project concerned the R&D activities carried out in the field of Opto Semiconductors (OS) for Light Emitting Diodes (LED) in the visible as well as invisible light spectrum. The new products helped to replace the traditional lamps still used in many areas by more energy efficient lighting solutions. The R&D activities were implemented during the years 2014 – 2016 mainly in Germany.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
