

## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: ADVANCED MEDICAL RESEARCH POLAND  
Project Number: 2014-0098  
Country: Poland  
Project Description: The project will support the medical research carried out in the public medical universities and medical scientific institutes in Poland from 2014 to 2016. It will comprise both capital and intangible expenditures. The latter will include the proportion of the researchers' remuneration dedicated to medical R&D.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

No significant environment or social issues were noted.

The project involved mainly intangible basic research activities in medical research (94% of the project cost) by various entities, while the rest of expenditures was equipment purchase and minor refurbishment schemes. None of the schemes included in the project required EIA.

Medical research has a high value for the society. It contributes to better health care services delivery resulting in improved health status of the population, thus, overall the project.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion, based on reports from the promoter, that the project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
