

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	BROADBAND ROLL-OUT EASTERN REGIONS
Project Number:	2012-0311
Country:	Turkey
Project Description:	The project concerned the roll-out of advanced fixed broadband telecommunication services in 6 Eastern regions of Turkey (Adana, Diyarbakir, Erzurum, Kayseri, Samsun and Trabzon). The upgraded broadband access network will use a combination of copper and fibre based broadband technologies. The investments will help these regions to benefit from significantly improved quality and availability of very high speed broadband services (up to 100 Mbit/s). The implementation was planned over the period 2012 – 2014.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The Bank has not been made aware of significant negative issues resulting from civil works performed in cities with cultural heritage or archaeological interests.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
