

## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	RAIL RECONSTRUCTION & NATURAL DISASTER SLOVENIA
Project Number:	2013-0453
Country:	Slovenia
Project Description:	The project is divided in two components: the modernisation of the existing railway line between Divaca-Koper and emergency measures after the damage to existing railway lines caused by extreme winter weather conditions occurred in February 2014.

### Summary of Environmental and Social Assessment at Completion

The project was assessed by the EIB in 2014 as an allocation request under a framework loan (2012-0504 "Slovenia EU Funds 2007- 2013"). The EIB concluded at that time that the project was acceptable from an environmental perspective (available at <http://www.eib.org/infocentre/register/all/58216556.pdf>).

The two components were completed as expected by the end of 2015 and are now under operation in line with appraisal expectations.

#### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter that the project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
