

## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	Fastweb Very High Speed Broadband
Project Number:	20120594
Country:	Italy
Project Description:	The project related to the investments in the promoters ADSL and FTTH network as well as the rollout of a new FTTS VDSL network. At completion, the number of ADSL enabled Central Offices as well as the number of Households covered by the FTTH network were in line with the estimates made during appraisal.

For the VDSL component of the project, the promoter decided in 2015 to expand the scope of the project.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

No significant environment or social issues were noted. The Bank has not been made aware of significant negative issues resulting from civil works performed in cities with cultural heritage or archaeological interests.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
