

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	DAIMLER FCELL & ELECTRIC VEHICLE RDI
Project Number:	2012-0464
Country:	Germany
Project Description:	The project concerned the promoter's RDI activities in the fields of: (i) Fuel-Cell and Battery powered electric vehicles, and (ii) Hybrid Vehicles, including mild and plug-in hybrids, and hybrid transmissions. The project's activities were carried out at the promoter's R&D centres, headquartered in Stuttgart, Germany.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development carried out in already authorised existing facilities. Overall, the project has been assessed as acceptable having no adverse impact on the environment. The developed technologies are and will be deployed in vehicles with lower or zero CO₂ emissions and fuel consumption, thus contributing to reduce the environmental impact while the world automotive fleet is continuously growing.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
