Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: KEMIRA RSFF
Project Number: 2012-0009
Country: FINLAND
Project Description: Financing Kemira RDI activities in water and other specialty chemicals for the period 2013-2016.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development that were carried out in existing facilities without changing their already authorised scope. Overall, the project has been assessed as acceptable having no adverse impact on the environment.

Most of the project R&D activities were primarily focusing on the development of environmentally-friendly products, applications and processes contributing to water consumption reduction in industrial processes. As a consequence the products and processes resulting from the project contribute to climate mitigation through improved resource efficiency.

Summary opinion of Environmental and Social aspects at completion:

Based on the reports provided by the promoter, EIB is of the opinion that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
