

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	HALDOR TOPSOE RDI RSFF
Project Number:	2012-0616
Country:	<i>DENMARK</i>
Project Description:	RDI investments in catalysts and the related design and engineering of process plants for the fertiliser industry, the chemical and petrochemical industries, and the energy sector (refineries and power plants).

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development that were carried out in existing facilities without changing their already authorised scope. Overall, the project has been assessed as acceptable having no adverse impact on the environment.

Most of the project R&D activities were almost exclusively focusing on the development of energy efficient catalysis technologies and environmentally-friendly applications and processes, as a consequence the products and processes resulting from the project contribute to climate mitigation and to the reduction of pollutant emission in the atmosphere.

Summary opinion of Environmental and Social aspects at completion:

Based on the reports provided by the promoter, EIB is of the opinion that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
