

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: Grifols Bioscience R&D Spain
Project Number: 2014-0603
Country: Spain
Project Description: Financing the promoter's R&D programme for new plasma proteins for various therapeutic areas, including Alzheimer disease, vascular and cardiovascular surgery and arterial thrombolysis.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development carried out in already authorised existing facilities. Overall, the project has been assessed as acceptable having no adverse impact on the environment. The research activities undertaken in the project are aiming to result in new and improved plasma protein treatments for various diseases, with a potentially positive social impact.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
