

## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	POLAND UNIVERSITY RESEARCH SUPPORT III
Project Number:	Poland
Country:	2014-0691
Project Description:	The objective is to promote economic and social development by producing new knowledge and innovative technologies, methodologies and products. The project concerns basic R&D activities undertaken in public universities and public scientific institutes in 2015 and 2016. The tangible element finances capital investments in enabling research infrastructures and scientific equipment. The intangible element finances the core scientific activities undertaken by the researchers employed by the public universities and institutes.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

No significant environment or social issues were noted.

The project was a multi-sector/multi-scheme operation focused on R&D undertaken in public universities and scientific institutes. The project involved mainly intangible research activities (83% of the project cost), while the rest of expenditures was mostly equipment purchase and refurbishment. None of the schemes included in the project required EIA.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion, based on reports from the promoter, that the project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
