

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	State Reform and e-Administration Co-financing
Project Number:	2009 0106
Country:	Hungary
Project Description:	This Structural Programme Loan co-financed with European Commission's Structural Funds and national resources the two Hungarian Operational Programmes (OP) for State Reform and Electronic Public Administration. The two OPs modernized the operations, procedures and processes in public administration through the development of its organization and staff and the utilization of Information and Communication Technologies (ICT). Their common objective was an efficient and high quality administration, particularly providing electronic public services.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion. No significant environment or social issues were noted. The promoter declared there were no newly constructed buildings in new locations and there were no requirements of Environmental Impact Assessment for schemes included in the project. During the allocation process the EIB requested a statement of full compliance with all aspects of EU Environmental law which was provided by the promoter. Therefore the project implementation confirmed that the project overall can be considered acceptable with minor negative residual impacts.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during construction that the project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
