

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: SDF SAFETY and FUEL EFFICIENCY
Project Number: 2012-0208
Country: *Italy, Germany*
Project Description: The project concerns the funding of R&D investments between 2013 and end 2017 of SAME DEUTZ-FAHR to achieve higher fuel efficiency standards for agricultural vehicles.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development carried out in authorised existing facilities. Overall, the project had been assessed as acceptable with minor negative residual impact.

In parallel, the project had positive environmental impact as the developed products contribute to the reduction of pollutant and CO₂ emissions from agricultural equipment.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
