

Environmental and Social Data Sheet

Overview

Project Name: **KONE INNOVATIVE PEOPLE FLOW RDI**
Project Number: 2018-0259
Country: Finland, Italy
Project Description: *RDI investments related to elevators, escalators, and intelligent people flow technologies during the period of 2018-2021*

EIA required: no

Project included in Carbon Footprint Exercise¹: no

Environmental and Social Assessment

Environmental Assessment

The project concerns the promoter's investments for RDI activities related to the development of elevators, escalators, autowalks, automatic doors and people flow intelligence technologies and solutions. The project activities are not listed in any annexes of the Directive 2014/52/EU amending the EIA Directive 2011/92/EU and will be carried out in existing facilities already authorised that will not change their scope due to the project.

Part of the project has a sustainability focus as it concerns improvements of energy efficiency in the developed products and solutions.

Other Environmental and Social Aspects

Focus on sustainable operations is high and 100% of corporate units, major manufacturing units and R&D units are ISO 14001 and ISO 9001 certified; also 94% of strategic suppliers have ISO 14001 certification.

Conclusions and Recommendations

In the light of the above, the proposed investments do not require any additional permits and fall within an already authorised scope. As such the project is acceptable for Bank financing in environmental and social terms.

PJ/SQM/ECSO 15.10.15

¹ Only projects that meet the scope of the Pilot Exercise, as defined in the EIB draft Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: above 100,000 tons CO₂e/year absolute (gross) or 20,000 tons CO₂e/year relative (net) – both increases and savings.
