## Environmental and Social Completion Sheet (ESCS)

### Overview

|                      |   |
|----------------------|---|
| Project Name:        | LYCEES REGION NORD-PAS DE CALAIS  |
| Project Number:      | 2013-0214   |
| Country:             | France  |
| Project Description: | The project comprised the co-financing of Nord-Pas de Calais region's investment in the construction and rehabilitation of secondary schools (lycées) (e.g. safety standards, learning environment, and accessibility), improvements in the vocational education and training infrastructure (CFAs), and investments in horizontal measures such as ICT equipment and infrastructure. |

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

The Région Nord-Pas de Calais is responsible for, owns and operates the lycées and other educational institutions eligible for the project funding. The project sites were situated in most cases on existing school estates and were already within respective city and/or regional plans. The project had overall been assessed as acceptable, having no adverse impacts on the environment.

None of the projects required an EIA and no complaints or legal issues were noted by the Bank.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
