## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	<i>PPC Distribution VI</i>
Project Number:	<i>2013-0193</i>
Country:	<i>Greece</i>
Project Description:	<i>Multi-component investment programme implemented over the period 2013-2015 with the purpose of renovating and reinforcing the electricity distribution network of Greece. The programme consisted of a large number - a few thousand - of MV and LV electricity distribution schemes geographically dispersed throughout peninsular and insular Greece.</i>

### Summary of Environmental and Social Assessment at Completion

Due to the slowdown of the project activities stemming from the adverse economic situation in Greece, the 2013-2015 implementation period was extended to mid-2017.

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

No significant environment or social issues were noted.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
