| Project Name: | TDC ADVANCED FIXED BROADBAND SERVICES ROLLOUT |
| Project Number: | 2013-0457 |
| Country: | Denmark |
| Project Description: | The project concerns the promoter's investments in Denmark to increase the availability and quality of advanced broadband services based on wireline technologies. |

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The promoter will roll-out latest technologies such as new fibre access networks and upgrade the existing copper access as well as cable TV networks. As a result, the project will help to expand the geographic availability and enable the provision of broadband services up to ultra-high speed (100 Mbit/s). The project will be implemented during 2014 - 2017.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, during project implementation that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
