Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	<i>LYCEES HQE LANGUEDOC-ROUSSILLON (2011-0113)</i>
Project Number:	2011-0113
Country:	France
Project Description:	The project comprised the construction of five new upper secondary schools, the renovation of 43 existing schools through 49 sub-projects, and one horizontal operation for the installation of wood-based heating systems in schools in the Languedoc-Roussillon Region.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion. The Région Languedoc Roussillon (now part of Occitanie) is responsible for, owns and operates the lycées eligible for the project funding. The project sites were situated in most cases on existing school estates and were already within respective city and/or regional plans. The project had overall been assessed as acceptable, having no adverse impacts on the environment. None of the projects required an EIA and no complaints or legal issues were noted by the Bank.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
