Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	Sprint – Risk Sharing Development Funding (RSFF)
Project Number:	2013-0428
Country:	Belgium
Project Description:	Contingent risk sharing and standard RDI loans for the research and development of six medical compounds addressing particular unmet clinical needs.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted. The project concerned investments in research and development carried out in already authorised existing facilities. The use of any animals for scientific research purposes within the scope of the project, if applicable, has been conducted in compliance with directive 2010/63/EU.

Overall, the project has been assessed as acceptable having no adverse impact on the environment. The research activities undertaken in the project aim to result in the development of several medical compounds addressing particular unmet clinical needs, with a potentially positive social impact.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
