## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	BENTELER LIGHTWEIGHTING - RDI AND COHESION
Project Number:	2013-0647
Country:	Germany, Czech Republic, Austria, Hungary
Project Description:	The project concerns the promoter's EU-based RDI and technology implementation activities under the theme of 'lightweighting' for the development of optimised lighter and safer chassis components, made of a wide variety of metal and non-metal materials and combinations, as well as engine parts with extensive downsizing potential. The purpose is to maintain the promoter's competitiveness as an innovative and reliable automotive Tier-1 supplier, and its lead in lightweight structures and components.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

No significant environment or social issues were noted.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion, based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
