## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: Aqua Burgenland Sopron

Project Number: 2012-0199

Country: Austria

Project Description: Installation of a trans-boundary water supply system linking the systems between the water associations of the northern and central part of Burgenland and of Sopron. Rehabilitation and replacement of water supply infrastructure from 2013 to 2017.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

Most of the works carried out under the Programme were upgrades of existing sites, reducing the overall impact of construction.

The Promoter carried out environmental impact assessments where required by the competent authorities, and mitigating measures were applied as appropriate. The relevant environmental authorisations have been issued and received.

None of the project's components required a full EIA process.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
