   Discussion on the process in respect of the selection of the Investment Committee members

Within the context of an initial discussion on the selection process of the IC expert members, there was consensus amongst the Steering Board members that the good EIB and EC collaboration on this issue should continue within the context of the future screening of the IC applicants. (e) **FOR DISCUSSION**
Initial discussion of the upcoming work programme of the Steering Board

It was recognised by the Steering Board members that for most of these issues the Steering Board may be confronted with questions from external stakeholders quite soon.

(i) Selection of a candidate for each of MD and DMD and process for informing the EP and Council (projected to be discussed by end of August)

The Chairperson noted that the selection of preferred candidates by the Steering Board should occur in September.

(ii) Exchange of views on the multiplier methodology (projected to be discussed by end of August)

The Steering Board members noted that this matter remains a “work in progress” with informal consultations between the Services of EIB and EC continuing.

(iii) Selection of the IC members (projected to be discussed by end of September)

The Chairperson noted that the issue had been previously discussed in the meeting.

(iv) Exchange of views on the strategic orientation of EFSI (projected to be discussed by end of September)

Given that the implementation of EFSI is still in its infancy, there was consensus among the Steering Board members that a first discussion on the strategic orientation could occur only after the end of September. The Steering Board members also acknowledged that the formal determination by the Steering Board of this matter may also take into account the views of the MD and Deputy MD, following their appointment.

(v) Exchange of views on operating policies and procedures for the functioning of EFSI (projected to be discussed by end of September)

The Steering Board considered that the future elaboration of such
policies and procedures should take into account and utilise the policies and procedures already agreed between the EIB and EC in the EFSI Agreement and related documents.

(vi) Discussion on the risk profile of EFSI (projected to be discussed by end of October)

The Steering Board members emphasised the need for clarification in the determination of the risk profile with regard to EFSI. A formal document should be adopted.

(vii) Discussion on indicative sectorial and geographical concentration limits (projected to be discussed by end of October)

The Steering Board members considered the resolution of these limits to be an urgent operational matter.

(viii) Approval of the SMEW instruments as per Article 7(3) of the EFSI Regulation alongside the MD and after consultation with IC members (projected to be discussed in October following the appointments of MD and IC members)

The proposed timing for approval of this issue was noted by the Steering Board members.

The Chairperson indicated that this issue should be appropriately addressed following the appointment of the MD and Deputy MD.

(x) Discussion on the policy and rules for Investment Platforms, NPBs and funds (projected to be discussed by Q4 2015)

This matter was considered by all Steering Board members to be of very high importance. It was also recognised by the Steering Board members that this is an issue for which the Steering Board may well be confronted with questions from external stakeholders quite soon.

(xi) Discussion on methodologies relating to Key Performance and Key Monitoring Indicators (projected to be discussed by end of October)

The suggested timing for the discussion of this issue was considered to be appropriate by the Steering Board members.

(xii) Discussion on a potential future coordinated EC and EIB framework for determining the macro employment impact of the EFSI mobilized investment (projected to be
discussed by Q4 2015)

The Steering Board members confirmed that a coordinated EIB-EC methodological approach at a technical level could be envisaged.

(xiii) initial discussion in respect of the obligation to engagement with various stakeholders on a regular basis (timing TBC)
