Responsible AI use

AI Journey @ EIB Group

AI Steering Committee

Governance

The Group AI Steering Committee kicked-off in September 2025 and is the **main body overseeing the implementation of the AI Strategy across the Group.**

It's responsible for **ensuring that the AI initiatives align with EIBG's values, standards and strategic objectives.**

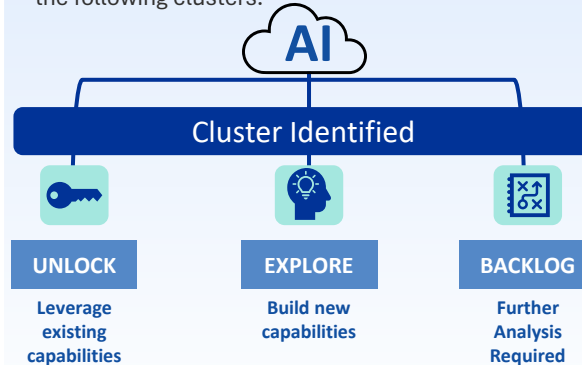

3 Director General Co-chairs

AI Use Cases Collection

Strategy

An AI Use Cases collection campaign was launched across the EIB Group in September 2025, **140+ AI requests** were received and organised in the following clusters:

AI Champions

Engagement

AI Champions are one of the **key enabling roles to drive RESPONSIBLE AI adoption @ EIBG**

Key responsibilities:

- Acting as the **“go-to” AI contact**, helping colleagues understand and benefit from AI tools and opportunities.
- **Supporting AI use cases**, working closely with AI Spokes and the AI Centre of Excellence (CoE).
- Driving **cultural adoption of AI**.
